

BEAUTY VOM PROCTOR HOUSE

Designer Gorilla Bloodline | Mother of the Kings Litter

Beauty Vom Proctor House is a standout female within the Proctor House Rottweilers breeding program. Combining an impressive European pedigree, excellent health results, powerful Rottweiler type, and proven production, Beauty has established herself as an important part of the foundation and future of our program.

Born May 14, 2024, Beauty is the daughter of Xico De Yolcris × Vaina De Yolcris. Her pedigree brings together respected European bloodlines and influential dogs, including Eminem Vom Hause Edelstein, Doctor Timit-Tor, Roko Vom Hause Edelstein, Lotta Vom Hause Edelstein, Lucifer Timit-Tor, Hera Timit-Tor, and Lex Vom Hause Edelstein.

Beauty possesses many of the qualities we strive for at Proctor House: strong structure, substance, impressive breed type, a powerful headpiece, beautiful expression, and unmistakable Rottweiler presence. Her combination of phenotype and pedigree made her an exciting addition to our breeding program, but what she has produced has made her even more valuable to our future.

Health Tested

At Proctor House Rottweilers, we believe a breeding program should be built on more than appearance and pedigree. Health testing plays an important role in the decisions we make for future generations.

Beauty has completed her international FCI/KSS hip and elbow evaluation, receiving excellent results:

- **Hips:** A
- **Elbows:** 0

These results represent the highest classifications shown under this hip and elbow grading system and provide another important piece of information when planning Beauty's future within our program.

Mother of the Kings Litter

Beauty has already made her mark as the mother of our Kings Litter, a special litter that represents the next generation of the Designer Gorilla Bloodline.

The quality and potential we saw from this litter led us to retain two males for the future of Proctor House:

- **King Louie Vom Proctor House** — Breeder's Pick
- **King Kong Vom Proctor House**

Keeping both King Louie and King Kong within our own program is a reflection of how highly we value what Beauty produced. These young males will have the opportunity to carry their mother's genetics forward and become part of the next chapter of Proctor House Rottweilers.

Beauty at a Glance

Registered Name	Beauty Vom Proctor House
